

Nand Engineering And consultancy

*.....THE FUTURE OF SERVICE
BEYOND BEST*

About Us

- Nand Engineering and consultancy is a company related to compliance and solution for industries that has in business since along .we have carried out good number of large projects with full satisfaction of customers .
- The company is leaded by professionals ,who have more than a decade of core experience in compliance and infrastructure .
- Together with our experience ,expertise and responsiveness , we stand committed to meet our customer deadlines maintaining all standards .
- Our excellence in customer services have helped our customers achieve stringent service level agreements ,due to reduced fault rates ,faster response times and hence provided them an edge over their competitors.

Our Merits

- Unique and creative solution that meet the customer expectations not only by realizing the customer's
- Business objectives ,but particularly by our strict adherence to the ethical principles of public relations .
- Team work based on the implementation of progressive communications disciplines.
- Professional quality of services provided by a highly motivated team.
- Strong Professional background.
- Courage and readiness to work on behalf of customer in crisis.

Mission:

- Our Mission is to create value to our clients by delivering innovative tailored solutions to move services and information more efficiently and effectively with the best system and processes.
- Provide end-to-end integrated power system solutions globally through Best-in-Class Technology, Quality and Safety
- Continuous improvement of processes to ensure customer satisfaction
- Create an environment for our people to pursue excellence through continuous learning

Services

PMC (Project Management and Consultancy)

- Large project always needs various approval to be done which becomes time consuming for the projects to be complete on time and hamper your brand value. NEAC experts are expertise in consultancy work which with the help of their good networking and good relations do your various Certification work in very less time. Be it any sort of liasioning, our experts completes in few days and help your projects to be completed on time.
- Expertise in handling PMC for entire project with proper coordination to move all various activity like surveillance system, Fire Safety System, Civil work, PAC, Electrical ,vasda ,DG Low side ,cold/Hot aisle containment, fiber runner routing Etc.
- NEAC experts are involve in SCM related activity to maintain Budget Value

Consultancy Services (Compliances)

❑ **Pollution Control Board Consultancy**

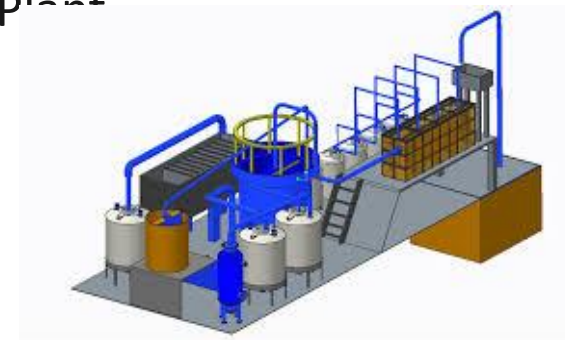

we are indulge in are

- CTO & CTE for D.G
- NMR & EMISSION Certification
- ESR Certification and Annual Report Submission
- Water Testing and Food Test report certification

❑ **Environment Consultancy Services (Design /Supply/Installation/AMC)**

- Setting up of Industry, Effluent treatment Plant, Sewage Treatment Plant
- Setting of Rain Water Harvesting Well (Any Capacity)
- Environment Impact Assessment of any Project.
- ETP/STP/RO Plant Design & Monitoring

Consultancy Services (Compliances)

☐ Hazardous and waste Management

- Consult with PCB to Provide Hz waste permission
- Waste handling and Storage Permission
- Waste disposed services
- ESR annual submission and monitoring

☐ Electrical Board Consultancy

- Load Up gradation with complete infra
- Bill Rectification ,New Connection, Transformer change by govt. related consultancy work
- L.T&H.T Line issue and RTU LT to HT Conversion
- CEIG Approval , Load Up gradation ,HT/LT Line 11/33 Kva design/ implementation /Sectioned/SLD/BOQ

Our Experts are also involve with fire & NBC Department for Site layout / safety Plan/Drawing /Fire safety approval (NOC)

Electrical Services (LT/HT)

Energy everywhere with NEC be it with High lines or low lines all are done with best safety and security for your projects-

- Fencing work & execution work for L.T & H.T Lines
- Supplies & services of Transformers /RMU/HT Panel/LBS/OCB/VCB
- D.G services (installation), Renting, overhauling
- Servo services & supplier, Oil Filtration and dehydration
- Internal electrification / Service connection works, Fire alarm and other fire detection equipment's work/Point Wiring
- Supply and erection of L.T panels, capacitor Panels/AVR/Servo and S&I of all type of Earthing, Like (pipe, cu& GI-plate , Electrode)
- U.G cable laying & fixing
- Termination lx installation & cable (max450 mm) lying with cable tray

NEAC also helps you with even small necessities required for your projects

Industrial Services

New Construction, Repair, Improvements and Additions

- Design/Build – Permit drawings & Title 24 compliance
- New Lighting Installations-Retrofit & Upgrades
- Lighting Controls For Title 24 Compliance
- Troubleshooting and Repair of Existing Electrical Systems
- Upgrade of Existing Electrical Service and Distribution
- Installation of Emergency Systems-Generator-UPS
- Parking Lot & Site Lighting Installations & Repair
- Power back up systems solutions
- Fire System design and Implement as according to Fire Norms

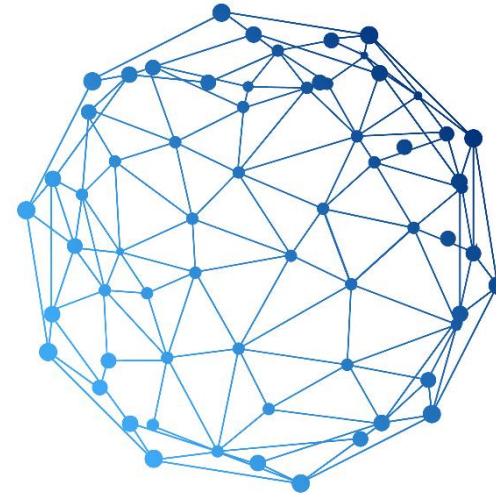

Our services encompass the design, installation & maintenance of all types of residential, commercial & industrial electrical power, control, security & emergency systems.

Data Center Services

Building/Expansion a Data Center for the Future

- Defining Data Center components based on current need and future requirements
- Cooling Optimization Services /BTU Calculations
- Ongoing Support and Maintenance Services
- Power management /Low voltage cable routing
- Thermal management and cooling optimization
- System study and Understanding Challenges.
- Green friendly Data Center expansion Design and planning
- Conceptual design
- Mechanical engineering and infrastructure design
- Electrical engineering infrastructure - Electrical and UPS provisioning – specialized Data center UPS system
- Technology infrastructure design

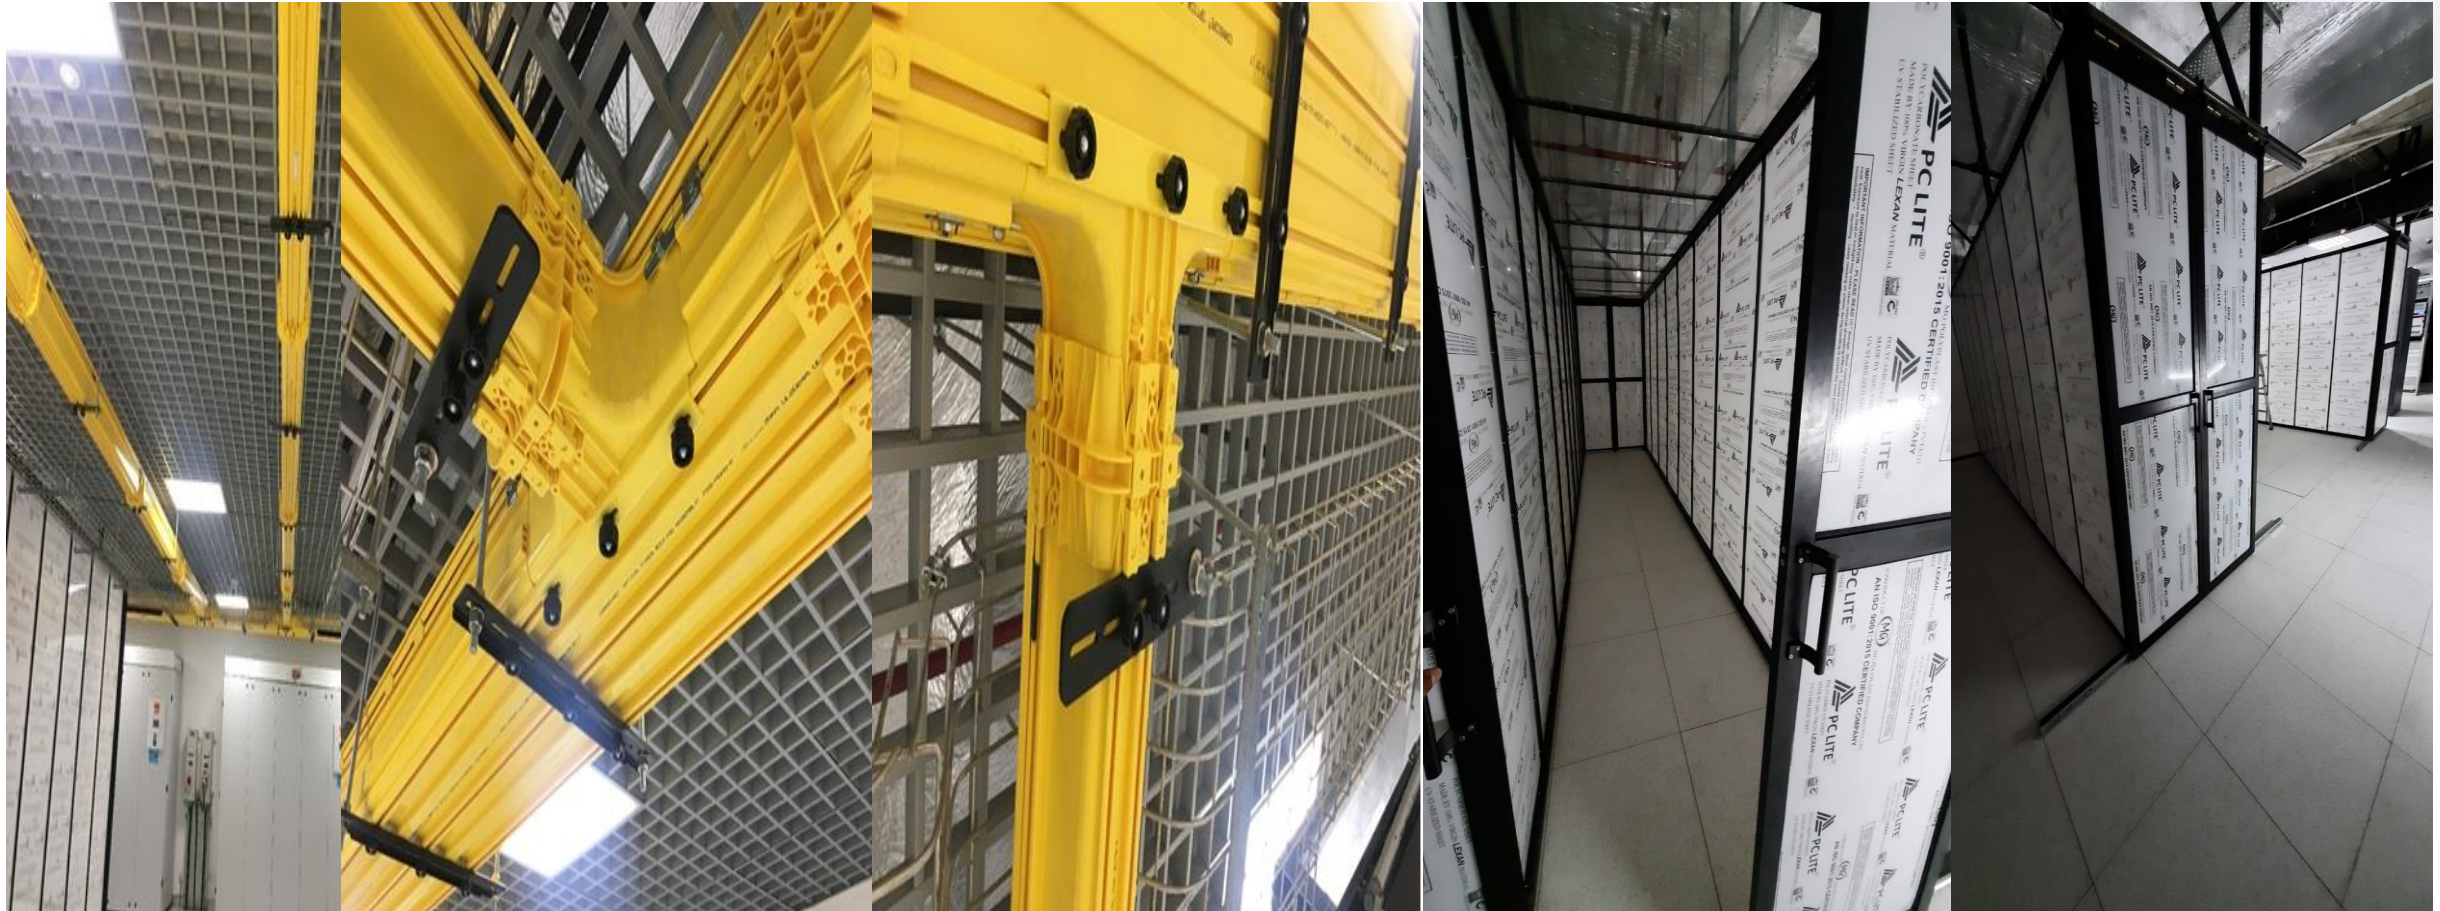

We work with our customer to release trapped electrical capacity in the data center and make sure environments are sized right for today and with scope for tomorrow's requirements, meaning

we can keep efficiency high, and TCO down .

Fiber Runner and CAC

NEAC is offering strong technical and commercial expertise in staple fibers as a raw material same as in CAC

LT And HT Panel

NEAC is offering strong technical expertise in HT panel and LT panel designing / Installation as according to Industry requirement .

Transformer/PSS/RMU/Go Switch

NEAC is offering strong technical expertise in HT Installations as according to Industry requirement .

Nitrile /Epoxy and Antistatic

NEAC is also involve to provide better solution of Nitrile /epoxy /Raised floor and Antistatic flooring

DG Low Side

NEAC is offering strong technical/Mechanical expertise in DG Low Side Installation as according to Industry requirement .

Fire And Smoke system

NEAC is offering strong technical expertise in Fire system designing / Installation as according to Industry requirement .

ETP and STP Plant system

NEAC is offering strong technical expertise in ETP/STP designing / Installation as according to Industry requirement .

Solar System and TF Dehydration

NEAC is offering strong technical expertise in solar System designing / Installation as according to Industry requirement .

TPI, Calibration and Lab Testing

NEAC is offering services in TPI of machinery plant, calibration of electrical instruments/weighing machine and also provide the services in the field of IR/PI/WRM/BDV/oil test/Dummy load

Safety Policy

We are committed to provide a safe Working Environment to Employees To Fulfill the Policy.

Nand Engineering and consultancy

Develop & Implement safety program and train and motivate employees to remain committed towards the common goal of the company.
